

## SECTION 017123.13 – CONSTRUCTION LAYOUT

### PART 1 – GENERAL

#### 1.1 DESCRIPTION

- A. Under this item, the Contractor shall provide all work required in connection with the layout for construction of the project, using the control points and data furnished by the Project Surveyor for the existing conditions and data furnished by the Engineer for the proposed conditions.

### PART 2 – PRODUCTS (NOT USED)

### PART 3 - EXECUTION

#### 3.1 METHOD OF STAKEOUT

- A. The Contractor shall submit all necessary computations to establish the exact position of all the work from the control points furnished by the Project Surveyor, along with construction grade sheets, prepared by a licensed land surveyor, to the Engineer for approval prior to the start of construction.
- B. The Contractor shall maintain the line and grade stakes furnished by the Engineer for his use in staking out the work. If such control points are damaged, lost, displaced or removed, they shall be reset or replaced at a charge to the Contractor for the actual cost of the work.
- C. The Contractor shall be responsible for maintaining the points he has established. Any error or apparent discrepancies found in the plans or specifications shall be called to the Engineer's attention in writing for interpretation prior to proceeding with the work.
